### REASONS FOR ALLOWANCE

1. Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a liquid crystal display device comprising a combination of various elements as claimed, more specifically, pixels having at least two sub-pixels being realized between the substrates, and with a compensator operatively associated therewith, characterized in at least two twist angles are introduced in the sub-pixels, which twist angles, viewed transversely to the substrates, are rotated similarly with respect to each other.

Wang ('723) discloses a liquid crystal display device comprising two liquid crystal layers having opposite sense of twist. Leehouts ('831) discloses a liquid crystal display device comprising subpixels. However, neither reference discloses 'pixels having at least two sub-pixels being realized between the substrates, and with a compensator operatively associated therewith, characterized in *at least two twist angles are introduced in the sub-pixels, which twist angles, viewed transversely to the substrates, are rotated similarly with respect to each other*'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2871
